

ESCAPE BOXES

THE MOBILE LIVE ESCAPE GAMES

Is there anything more exciting than working against the clock with friends and colleagues to break out of a locked room? Probably not, but here's the catch: conventional escape-room games can only be played in a fixed location.

Our Escape Boxes have a key feature that takes the genre to a new level: due to their lean dimensions (boxes are there to be moved, after all), they are not fixed to one location but rather can be set up at a location of your choosing.

Our Escape Boxes make the perfect complements to our iPad Rally, the iChallenge, but naturally can also be used separately – both indoors as well as outdoors. They provide you the perfect means to create a very special kind of team event.

There are four different Escape Boxes in all, each with its own theme: a pirate treasure, the secrets of a brilliant alchemist, a missing tropical scientist and a famous private detective are just waiting to be brought to life.

The various teams in cooperation mode must either help each other out, or they have to try to break open the boxes faster than their opponent teams.

Yet there's one thing you and your team should never forget, and that's to stay alert. Because who knows whether, along with ground-breaking discoveries, there might also be terrible curses or treacherous traps lurking in the boxes?
